It is a promenade along a gently flowing river. In June evenings, you can see fireflies.

The Saigoku 33 place Kannon pilgrimage visits 33 temples across Kansai & Gifu. Starting in 1555, the local villagers erected 33 stone Buddhas, using Pebbles & Sand from each temple as their foundations. They then named this mountain Kumano-yama after the Kumano sacred site. The villagers are protecting this mountain wishing that your heart will be filled with joy throughout the rest of your life. Have a wonderful day!

First, will visit the Kannon at Jyojuuin temple before entering the mountain Kannon welcomes you.
